COMBINATION

WE BOOST YOUR POWER WITH PROFESSIONALITY.

One touch is enough for perfect cooking!

Time saving and an excellent flavor are just a button away with the convenience of the touch screen, innovative cooking modes and adjustment buttons

Inosmart steam generator ovens make cooking more efficient thanks to the powerful steam generator, which is ready to produce steam at any time. With the touchscreen and digital options, you can take a closer look at the Inosmart family.

STOVE

- Width: 600 mm
- Depth: 600 mm
- Height: 500 mm
- Heat Capacity: 4 kW
- Net Weight: 28 kg

The body of the appliance is made of AISI 304 quality 18/8 Cr-Ni stainless steel. The chassis has profile construction.

Its height can be adjusted between 820 mm to 960 mm with adjustable legs.

1,5 module kitchen stoves also have a warm cabinet made of stainless steel.

Cast iron grills are resistant to 120 kg load.

It has wet collecting trays that collects oil leaks. The furnace block is made of aluminized sheet and is insulated all around. Thanks to the heat resistant glass, the inside of the oven can be seen without opening the oven door.

GAS ELECTRIC

DONER KEBAB MACHINE WITH ROBAX GLASSFOR A HEALTHY COOKING

DONER KEBAB MACHINE ROBAX GLASS, 3 LEVELS MOTOR ON THE TOP

Since the doner kebab does not contact the flame, carcinogenic gases are not transmitted to the meat. It cooks deeply and does not burn the surface of the meat.
It prevents water and vitamin loss in meat by 25%.

DISHWASHERS

Dishwashers are designed for facilities where catering services are provided or for cafeteria type facilities to wash dishes like trays, plates, cups, forks [1]spoons etc.in special designed cassettes.

All the water contacting areas of the dishwashers and equipment are manufactured from AISI304 grade 18/8 Cr/Ni stainless steel. (S series excluded.)

TECHNOLOGY THAT RETURNS BOTH ENERGY AND MONEY YOU INVESTED!

New Heat Recovery dishwasher reduces energy, water and indoor air moisture in the kitchens. It simply uses the inside hot air and return to water circuit. This achieves cost savings up to %20 and the investment returns back within 2 years. İnoksan heat recovery dishwasher helps to save energy in your business and create sustainable world with less water.

ADVANCED CAPACITY MAXIMUM SAVING

İnoksan's environmentally friendly BYM family, which can wash from 500 to 6000 plates per hour, provides water, electricity and detergent savings with its efficiency principle.

DISHWASHERS & EQUIPMENT

ARE YOU AWARE OF THE DANGER YOU ARE EXPOSED TO?

Hygiene is not enough for cleaning. Bacteria grow rapidly between 5 and 65 degrees, reproduction stops at 65 degrees and the bacteria begin to die at higher temperatures. In order to completely eliminate them, the rinsing process must be done with water at 85 degrees. The use of an industrial type dishwasher provides a cost advantage of 1 to 6 compared to manual washing and 1 to 9 compared to household dishwasher in terms of water consumption, time, labor and product usage.
